**Note:** This summary schedule includes payments to either Debtor or non-debtor employees and non-employee directors made on behalf of a Debtor company.

**Definitions of Category Groupings:**

- (1) Reflects items such as base salary, executive cash allowances, and benefits payments.
- (2) Reflects annual cash incentives paid based upon company performance. Also may include other retention payments.
- (3) Reflects long-term incentive cash payments from various long-term incentive programs designed to tie executive compensation to long-term success as measured against key performance drivers and business objectives over a multi-year period, generally 3 to 5 years.
- (4) Reflects voluntary executive deferrals of salary, annual cash incentives, and long-term cash incentives as well as cash fees deferred by non-employee directors under a deferred compensation arrangement. May also reflect deferrals under a stock option or phantom stock unit in lieu of cash arrangement.
- (5) Reflects distributions from a deferred compensation arrangement due to termination of employment or due to in-service withdrawals as per plan provisions.
- (6) Reflects total amount of loan advances, excluding repayments, provided by the Debtor in return for a promise of repayment. In certain instances, the terms of the promissory notes allow for the option to repay with stock of the company.
- (7) Reflects items such as payments for severance, consulting services, relocation costs, tax advances and allowances for employees on international assignment (i.e. housing allowances, cost of living allowances, payments under Enron's Tax Equalization Program, etc.). May also include payments provided with respect to employment agreements, as well as imputed income amounts for such things as use of corporate aircraft.
- (8) Reflects reimbursements of business expenses. May include fees paid for consulting services.
- (9) Reflects cash payments and/or value of stock grants made in lieu of cash payments to non-employee directors.
- (10) Reflects amounts from exercised stock options which equal the market value in excess of the exercise price on the date the options were exercised either through cashless (same-day sale), stock swap or cash exercises. The reflected gain may differ from that realized by the insider due to fluctuations in the market price and the timing of any subsequent sale of the securities.
- (11) Reflects the gross fair market value of shares and accrued dividends (and/or phantom units and dividend equivalents) on the date of release due to lapse of vesting periods, regardless of whether deferred.
- (12) Reflects value of restricted stock voluntarily deferred prior to release under a deferred compensation arrangement.
- (13) In 1998, 1999 and 2000, Debtor and non-debtor affiliates were charged for options granted. The Black-Scholes method was used to determine the amount to be charged. Any amounts charged to Debtor and non-debtor affiliates associated with the options exercised related to these three years have not been subtracted from the share value amounts shown.

**Footnotes:**
